-- Gro Brundtland
"The person who tries to live alone will not succeed as a human being. His heart withers if it does not answer another heart. His mind shrinks away if he hears only the echoes of his own thoughts and finds no other inspiration."

-- Pearl S. Buck
"A diverse ecosystem will also be resilient, because it contains many species with overlapping ecological functions that can partially replace one another. When a particular species is destroyed by a severe disturbance so that a link in the network is broken, a diverse community will be able to survive and reorganize itself... In other words, the more complex the network is, the more complex its pattern of interconnections, the more resilient it will be."

-- Fritjof Capra

-- Albert Einstein
"The only real nation is humanity."

One stark result is that the world's poor live, and especially die, with the awareness that the United States is doing little to mobilize the weapons of mass salvation that could offer them survival, dignity and eventually the escape from poverty."

-- Jeffrey Sachs
"All things are connected like the blood that unites us, We did not weave the web of life. We are merely a strand in it. Whatever we do to the web, we do to ourselves."
